**Rev. Allison J. Hayes of Kittery Takes
Up His Duties as Chaplain in
the Navy**

Rev. Allison J. Hayes of Kittery, who was recently appointed chaplain in the United States navy, and who on Wednesday took up his duties on the U. S. S. Southey, will conclude his work as pastor of the Second Methodist church in that town tomorrow.

Chaplain Hayes is a native of the state of Iowa. He received a public school education in the West, and later went to Balline University from which he received an A. B. degree.

He entered the ministry in 1904, and has been preaching continuously since that time with the exception of a year and a half, which time was spent as

a field representative and financial secretary of his alma mater, Balline University. He was also superintendent of the Redpath Chautauqua for one season.

On Oct. 19, 1911, he began his duties in Kittery as the pastor of the Second Methodist church there, and also as pastor of the South Hill Methodist church. During his first year there he took a post graduate course at Boston University from which he received an M. A. degree.

SHAKE UP IN GERMAN NAVY

**Understood However That
Germany Will Not Abandon
Submarine
Operations.**

(Special to The Herald)

Berlin, Sept. 25.—Emperor William has given the German navy the greatest shakeup in its history as a result of the submarine policy which for a time threatened a break between Berlin and the Washington governments. Following an announcement that Vice-Admiral Bachmann chief of the naval general staff and Rear Admiral Behncke, vice chief have been retired from active service, it became known that Vice-Admiral Von Lams had been supplanted. Von Gropow has been serving as director of the nautical department of the Imperial navy while Von Lams has been in command of the first squadron of the fleet. More than a dozen officers who have been performing duty in Admiralty positions have been assigned to other posts. It is understood that Germany will not abandon its submarine campaign against British shipping but full warship will be given and passenger ships will be shared.

(Special to The Herald)

Petrograd, Sept. 25.—A strong Russian counter offensive is developing all along the line in Poland and Galicia. At many points the German advance has been decisively repulsed. Logischin, 10 miles north of Pinsk, has been recaptured by the Russians following the retirement of Von Mackensen's German troops to the west of the Odniest canal. The capture of more than 5000 German officers and men within the past 24 hours is reported at Vinsk, however, where Von Hindenburg massed an enormous number of men and big guns. Fierce fighting is still in progress with the Germans attempting to take the fortress. The Germans are using poisonous gases and liquid fire as well as artillery and small arms. It is officially admitted that the advance post of the Russian army has reached Mayschanka on the right side of the Sestehara river.

(Special to The Herald)

Amsterdam, Sept. 25.—British warships bombarded the German naval base at Zeebrugge, Belgium at dawn today. The defenses are reported to have been damaged before the German artillery compelled the squadron to draw off.

London, Sept. 25.—Diplomats' conflict in the Balkans continues. Although the near East is an armed camp the Allies are maintaining their efforts to keep Bulgaria from joining Germany. According to the latest reports King Constantine of Greece has sent a personal letter to King Ferdinand.

AMERICAN TROOPS IN ENGAGEMENT

Cape Hatten, Sept. 25.—American forces today fought a running battle with Hatten rebels near Consvies. Learning that the rebels had entrenched themselves the American marines advanced upon their position and soon drove out the revolutionists. The rebels broke and fled after a few volleys had been fired, pursued by the Americans.

Away back in May, to be exact, May 12, President William J. Cater of the Portsmouth Athletic Club saluted the members of the P. A. C. Sunset League team, "Boys, if you win the championship, I'll give you all a good dinner."

team is history and has been told many times. There was nothing for "Bully" Cater to do but make good, and he was more than willing to do so. Last evening at the Club House, Mr. Cater was host to the members of the team, and the boys were treated royally. And it was a dandy dinner.

LEAGUE FLAG IS CONCEDED TO BOSTON

Washington, D. C., Sept. 21.—Under the big banner head "Jennings Concedes Pennant to Red Sox," this evening's Star prints the following interview with Manager Jennings of the Detroit club:

Hughie Jennings and his Tigers are here to play five games with the Griffins. The genial leader of the Tigers has about given up all hope of landing the pennant this year.

"It is true the race is not yet over. There is a remote chance for us still, but it is much like two racing horses in opposite directions and the one going the wrong way expecting to have its number hung up" is the way Hughie sized it up.

"Had we been hitting up to our standard in the series at Boston, we would have won easily enough. We had good pitching and played just as good ball as the Red Sox, but we could not get the hits when they were needed, and that beat us."

"When Chicago was running out in front a lot of folks thought they would make a runaway race of it, but the White Sox never gave me any worry, for I know that the dangerous team was the Red Sox."

Pennant is Won, Lannin Claims, in Letter to Mayor.

Victory for the Red Sox in their great pennant fight practically was claimed in a letter received by Mayor James M. Curley from Joseph Lannin, president of the club early today. This was in reply to a letter of congratulation sent to President Lannin by the Mayor three days ago. Here is the Lannin view of the situation.

His Honor, James M. Curley, City Hall, Boston, Mass.

My Dear Mr. Mayor—I have your letter of Sept. 21, and I cannot find words to express my deep gratitude for the warm sentiments it contained.

It has been my highest ambition to have the championship of the American League come to good old Boston, and now that I see the season drawing to a close with the Red Sox practically victorious, I am very happy.

The fans have been loyal to the club, and I wish it were possible that I might thank each one in person for the part he has played in the success of the club.

Thanking you a thousand times for your letter, and looking forward to the pleasure of seeing you within a few days, I remain,

Very sincerely yours,

JOSEPH J. LANNIN, President.

JEFF MUST BE A FRIEND OF BRYAN'S.

New York, Sept. 21.—Jeff Davis, proprietor of the late Hotel de Gluck, has hit on a plan to promote universal peace and at the same time keep 4000 hobnob wamp this winter. He outlined it yesterday.

"I was coming up from Washington the other day after a conference with the President," he said, "and when I went past Philadelphia I saw 18 of them obsolete battleships in the channel. Think! There's a chance to use them battleships that would otherwise go to the scrap heap."

"Well, I had our jungle boys pass the word along that here was board and room all winter, and I got 50,000 postcards from members of the United Nations of America all vowing yes. Tonight I'm going to telegraph Daniels and tell him we only want eight of them ships."

"But they gotta be disbanded—one of the eternal principles of the brotherhood is that there ain't to be bloodshed. A distinguished New York capitalist whose name I can't quote says to me: 'Mr. Davis, why don't you fellows go to the Plattsburg training camp?' And I says to him: 'Gee! If we went to kill anything we kin go to Chicago and get \$1 a day instead of going to war for \$1.25 a week.'"

"You can quote me as sayin' that," he added.

WHITTED AND DUGEY OF PHILADELPHIA NATIONALS, LUCKIEST BALL PLAYERS IN THE COUNTRY.

Philadelphia, Sept. 25.—The two luckiest ball players in the game today are George Whitted and Oscar Dugey of the Phillies. Last year these two youngsters were members of the Champion Boston Braves and got their end of the world's series. Last winter these two pill chasers were traded to Pat Moran's team for Sherwood Magee. At the time both were somewhat displeased over the change of scene, but became reconciled to their fate and right from the start of the 1915 campaign the pair have played brilliant ball and have had much to do with the Phillies winning this year's pennant. For the second time in two seasons Whitted and Dugey will be in on the world's series money and have sent a message to Manager George Stallings of the Boston Braves thanking him for sending them to Philadelphia.

STATE COLLEGE TEAM CERTAIN OF VICTORY

MEETS BOWDOIN IN OPENING GAME THIS AFTERNOON WITH FAST AND HEAVY ELEVEN

New Hampshire College, Durham, N. H., Sept. 24.—Encouraged by the first scrimmage of the season held yesterday afternoon, the New Hampshire football team will go down to Bowdoin today, confident that it can give Bowdoin an interesting afternoon. Eight o'clock classes this morning will be delayed twenty minutes to enable the students to go down to the railroad station to cheer the eleven.

The heat of the first few days of practice has kept the work back, but under the leadership of Coach Cowell a good deal of lost time has now been made up. The men are well trained in the fundamentals, and if they have not been in many lineups, they are for the most part veterans of former years. There will be probably half a dozen new men in the line when the whistle blows.

The team is heavier and faster than last year, and it is confident New Hampshire undergraduates haven't had so much enthusiasm for years as this fall, and the reason is, they think they have a winning team.

It may not beat Bowdoin, but it will be able to make any team from schools of from 600 to 700 students use all the football it knows. In the first scrimmage of the year, yesterday, the varsity overwhelmed the scrubs. The students on the sideline sat up. Coach Cowell is leaving nothing undone, and two assistants will be on hand before the next game to help him. One of these will be Francis, from the University of Illinois, and the other will be from Iowa Agricultural College.

BOSTON LETTER

Boston, Sept. 25.—Governor David I. Walsh speaking before the Submasters Club, scored some of the methods used in securing teachers for the public schools. "I think it is a crime," he said, "to take a girl from Smith or Wellesley college to guide and train children who have been for ten or twelve years under the direction of the most carefully prepared professional teachers. The time is coming when the government must not only prepare the boy for his life work but bring him to that work. It will systematically learn where the opportunities are and bring the child from school and place him in that niche. It seems to me that something is materially lacking when it comes to equipping the boy for practical life if he goes out of the school at 14 not equipped for his life work. At least forty years ago they were teaching boys in Germany how to farm, and we haven't heard a word of it in this state until within a half dozen years."

The real battle between the anti and suffragers for the favor of the voters at the state election will begin on Monday. The anti on that date will begin a state-wide stamping tour in opposition to woman suffrage. Their speakers will talk in every city and nearly every town in the Commonwealth before election day and they promise to make things hum. The suffragers are already in the field and some lively clashes are predicted when the two forces meet on the same grounds.

Boston, Sept. 25.—Many voters, since the recent state primary, complain that the ballot ought to be made more secret if a voter is to be fully protected when voting the new primary sheet. The sheet was so wide that voters claim it was easy to see the men as they stood in the stalls, and easy to see whether they were voting on the Democratic or Republican side of the ballots. Intimidation and surveillance, it is claimed, could be brought into play with the use of these ballots, unless there is a protection placed behind the voters as well as the sides of the booths.

The 12th annual session of the Massachusetts State Conference of Charities will convene at Pittsfield Oct. 20-22. An especially strong program for a state conference has been arranged for the 300 official delegates, representing the various charitable organizations in this state at this year's session. The local committee on entertainment of which Mrs. Frank G. Crane is chairman, is being assisted by a special committee of the Pittsfield Board of Trade in making arrangements for the delegates and their entertainment. An auto trip is planned for the first afternoon, and at the close of the first evening session an informal reception will be tendered to the delegates at the Maplewood hotel, the headquarters of the conference. On Thursday afternoon, Mrs. Frank G. Crane will receive the delegates at her home in Dalton. There will be exhibits of social work of material from institutions in Waverly, Wrentham and Wrentham, N. J. and for demonstrations of various mental tests.

GERMAN PROFESSOR SETS BIRTH RATE IN HIS NEW BOOK

Dutch book reviewers have received a surprising book entitled, "Woman's Contribution to the Defense of the Realm," by Professor Dr. A. Grodinski, professor of hygiene in the University of Berlin, in which he sets three children as the minimum birthrate for every German family. "If this official number is not reached," he continues, "the parents who are negligent must be heavily taxed for the benefit of those who do their duty."

The author would take no account of eugenics, asserting that "with our lack of definite knowledge about the laws of heredity we cannot say what children may or may not be sufficiently healthy to do their duty for the fatherland."

The professor contends that the role of womanhood is to be more highly appreciated as the result of the present war. Woman is to be recognized as a factor in the defense of the realm in proportion as she contributed men to build up the army and increase the glory of the state. "For only those highly cultured nations which can defend themselves will be able to acquire immortality," the author concludes.

BALKAN LEGIONS START MARCHING

Bulgaria's Action Has Set All War Forces in Motion.—Greece Calls Out First-Line Forces.

Sofia, Bulgaria, via London, Sept. 25.—An article which may throw some light on the Bulgarian mobilization appears today in the *Mir*, which asks what Bulgaria will do if Germany appears on its frontiers, since a German invasion in Serbia will be attempted. Replying to its own question the paper says:

"It would mean the Bulgarians must not allow the undisputed passage of German troops through their country. If the Bulgarians consented without making common cause with Germany, then they would be unable to refuse the same privilege to the Russians, who might disembark at Varna. Then the two adversaries would meet to fight on Bulgarian territory to decide the fate of the country and people if not the fate of the whole war."

"Thus Bulgaria would emerge ruined like Belgium. Moreover, her honor would be lost. If the Bulgarians joined the Germans and should they triumph, then Bulgaria would be on a vassal state of Germany and Austria."

"The *Mir* urges an agreement with the Quadruple Entente on the ground that Bulgaria will be overrun with Germans if Serbia is invaded."

Ready to Join Germany

Paris, Sept. 24.—The Bulgarian situation is absorbing the attention of France to the exclusion of all other topics. Little doubt is felt here that Bulgaria, or rather King Ferdinand, has decided to cast its lot with the Central Powers. "For months," says John Herbet, one of the authorities of France on foreign politics, "the Quadruple Entente has been talking to

Bulgaria, without acting, during the same period Bulgaria has been preparing to act without talking. The time has come when Bulgaria is acting." While such headlines as "Will Czar Ferdinand repeat the error of 1913?" are common, French editorial writers betray some anxiety at the prospect of an added complication in the struggle for Constantinople.

"Blackmail" Against Allies

Rome, Sept. 24.—"Even if Bulgaria has not definitely agreed to side with the Central Powers," says the *Gloire d'Italia*, "it undoubtedly has augmented the tension with the quadruple entente by Bulgarian mobilization does not mean an immediate invasion of Macedonia or an attack upon Serbia in the near future in the case of an Austro-German rush through the Balkans, the most optimistic explanation is that it is an attempt to blackmail the Allies to press Serbia to make further territorial concessions as the Bulgarian ideal is to obtain Macedonia and Thrace without going to war. Greek mobilization probably will be followed by similar steps in Rumania. These may be only precautionary measures, especially as Greece is not inclined to consider even an attack upon Serbia as a cause for war, maintaining that the Greco-Serbian alliance ceased to exist when Serbia consented to make territorial concessions to Bulgaria, while the object of the alliance was to avoid any alteration of the boundaries established by the treaty of Bucharest. Greece also maintains that the alliance did not consider the possibility of a war in which the European Powers would participate."

An "Unparalleled Crime." Petrograd, Sept. 24, via London, 1.0 p. m.—M. Guchkoff, president of the Slav committee of Moscow, sent telegrams today to Dr. S. Danoff, former Bulgarian premier; M. Guechov, former Bulgarian minister at Berlin and other Bulgarian statesmen, in which he said that if Bulgaria should join with Germany her action would be a crime unparalleled in the history of nations. Russians were unable to believe, said M. Guchkoff, that Bulgaria "liberated from the Turkish yoke by Russia, contemplates joining Germany the inveterate enemy of the Slav race." Bulgars Fortify on Black Sea

Athens, Sept. 24.—Democratic circles here have been informed that Bulgarian warships which were stationed at Varna, on the Black Sea, have sought shelter in a neighboring bay. Large numbers of men are working at feverish speed to fortify Bulgarian Black Sea ports. The valuables of the branches of the National Bank at Burgas and Varna have been removed to Sofia.

Greece Orders Mobilization

Athens, Sept. 24.—A decree for general mobilization of twenty classes of Greek soldiers was signed last night by King Constantine and promulgated. The decision of the king has aroused the greatest enthusiasm.

This action is the result of Bulgaria's mobilization, the Greek Government having decided to answer these measures by equivalent preparations. The classes of 1892 to 1911 are called to the colors. The semi-official newspaper *Patris* of Athens says that the military measures undertaken by Greece show a decision has been reached to meet Bulgaria's move energetically and with out delay. It adds that the intention of Greece is to defend her own rights and fulfill her duty to support Serbia.

The Greek minister at London here today received notification by cable of the issue in Athens of the Greek mobilization decree. It being stated that action by Bulgaria made it incumbent upon Greece to follow suit.

Issuance of the mobilization decree came quickly after the king had granted an audience to Premier Venizelos. The premier informed the king that mobilization was the only possible reply to Bulgaria's move. To this the sovereign agreed, stipulating that it should be regarded as a defensive measure. The minister of war, General Danglis, probably took the decree to the palace, and the king signed it. The twenty classes now called to the colors are in addition to four classes already under arms.

800,000 MENACE SERBS?

This Number of Germans Said to Be Available for Drive Through the Balkans.

Nish, Sept. 24.—The best information obtainable here is that there are 800,000 German troops available for an attempt to force a passage through Serbia. It is felt in Nish that this movement will be undertaken, although when is not known. The operations thus far indicate that the Germans are feeling out the Serbian positions.

MORE ALLIES FOR STRAITS?

Berlin Hears That 110,000 Additional Troops Have Been Despatched

Berlin, via wireless to Sayville, N. Y., Sept. 24.—A new army of 110,000 men have been sent to the assistance of the Allied forces at the Dardanelles, according to the Overseas News Agency. This information was confirmed, the news agency says, in a despatch from Athens. The reinforcements for the French and British forces are said to have landed at Mudros on Lemnos Island, in the Aegean Sea.

Russians Advance in South

Petrograd, Sept. 24.—The following official statement was issued last night at the Russian War Office:

"A German airplane shelled Shlok (west of Riga). When shelled by the Russians the machine hurriedly descended beyond the German trenches."

"Fighting at Stounga, on the Elan River, resulted in the flight of the Germans, who abandoned a number of hand grenades, cartridges and utensils. Stubborn fighting commenced at Alala in the Neugub region, the village continually changing hands. In the region of Dvinsk there has been no change. During a bayonet fight west of Sveben Lake one officer, one hundred men and one machine gun were captured. In the Smilga region in the course of desperate hand-to-hand fighting two machine guns and over 200 men were captured. One height changed hands repeatedly."

"In the region of Smorgon, on the front southeast of Vilna, and also in the region of Gavia, east of Lida, engagements occurred, some of which were of extreme violence. Between the right bank of the Molehad and the left affluent of the Nienien and the fords of its upper course, as well as in the region of the Ogniski Canal there were several serious bayonet encounters, which increased in intensity. The Russians continue to show the highest qualities of gallantry and resistance, thereby provoking in even greater degree the enemy's obstinacy."

"Northwest of Dubno, in spite of the enemy's efforts to check the Russian offensive by counter-attacks the Russians occupied Wodlusz, on the left bank of the Ikwa, capturing twenty-eight officers, 1400 men and three machine guns."

"In the region of Dvoretz, southwest of Kremenetz, during the occupation of one height, two officers and 100 men fell into our hands."

"In the region north of Zale Szeczyk (Gallitz) the enemy was repulsed from Worfollintse and Ghinkowitce. The ca-

valry pursued and defeated the enemy, the Austrians being partly killed and partly taken prisoners. Continuing their gallant work the cavalry pushed on to Broussy, southwest of Tinsle and in the course of subsequent fighting more prisoners were taken, together with a quantity of weapons."

EDISON NOTES

To get the atmosphere of the western country for the Edison feature "Ransom's Folly," Director Ridgely had to take the principals, Edward Earle, Mabelle Trunnelle and Mary McDermott and company away into the woods near the Catskill mountains. It had been overlooked that Edward Earle would have to make a complete change of costume during the scenes. The automobiles afforded no dressing room so Earle took to the woods. The director was getting impatient when a yell came from the shrubbery, and Earle, swinging his arms dashed full swing into the clearing, garbed only in his underwear. Everybody, except the women who ran off in another direction started. The wild animal was looked for but instead James Harris was nearly knocked over by the highly excited Earle who shouted "Get 'em off." They doubted the man's sanity until they saw that he was covered with tiny black specks—mosquitoes on the job with all those power pumps working and very much attached to the favorite John Sturgeon, who it seems should have been named surgeon, heroically grabbed a smoke pot, and like an incense burner waved it around Earle until the pesky critters gave up and flew away. It may be noticed that the hero of this tale does practically all sitting in the feature named, though he does smile wonderfully well in it at times.

Richard Harding Davis' popular story, "Ransom's Folly," affords Edison a chance to place the three stars, Edward Earle, Mabelle Trunnelle and Mary McDermott in one feature for the first time in a long while. Director Ridgely gets remarkable western atmosphere, though it is also a long time since he has produced this sort of a play. Edward Earle appears in quite a different role, a touch of light comedy which gives a new view of this favorite. Mary McDermott is as always artistically at home in the bad man with a concealed crooked life. Mabelle Trunnelle is a delightful comic relief.

That the life of the motion picture actor is one of risk is well evidenced in the precarious position of the Edison players who enacted the sea drama features, "What happened in the Barbuda." Because of the abnormal shipping conditions on account of the war, Director Langdon West could not find a ship that would fit his purpose except the German boat *Magdeburg*, interned in New York harbor. After the director had engaged the ship, too late to make a change, he learned that the hatchways were sealed down because the boat was loaded with dynamite for the seal of war but, under the law it could neither go nor remove the dangerous explosive. So for several days the company had to be on the deadly laden boat, but you may be sure that many of them walked pretty softly and clambered over its side with a pretty gingerly feeling. Also that the anxiety on their faces, coming well in the action of the play, is something more than make believe.

To be at the age of 23 years, spoken of by a leading critic as an exponent and pioneer of what the best in the future of the moving picture holds, and never to have been an actor on stage or screen is of itself a significant of the ability of a director. Such is the unique record of John H. Collins, Edison director, who has to his credit the direction of many of the most successful pictures produced by the company.

Starting as a boy at a time when motion pictures were thought an experiment, when no lights but sunlight were known, when painted scenery stood for a world of objects, Director Collins has grown up with the industry and his growth has been as fast as the business. His was the role of a man of parts when he first began with Edison—acting as assistant to 4

Have you a lame back,aching day after night? Do you feel sharp pains after stooping? Are the kidneys sore? Is their action irregular? Use Doan's Kidney Pills—the medicine recommended by so many Portsmouth people. Read this case:

Clinton K. Hurd, 135 Hill St., Portsmouth, says: "For six months I was annoyed off and on by my kidneys. I had such sharp pains in my back that I couldn't do anything. I also felt tired and sore and suffered from rheumatic pains. One box of Doan's Kidney Pills, which I got at Philbrick's Drug Store, relieved the soreness in my back and corrected the other difficulties."

A PERMANENT CURE. More than five years later, Mr. Hurd said: "Continued use of Doan's Kidney Pills cured me and the cure has been permanent."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hurd has twice publicly recommended. Foster-McBarn Co., Props., Buffalo, N. Y.

EDNA PORTER

"EVERYWOMAN" at Portsmouth Theatre Friday, October 1.

directors, watching for the sun, and casting the players, many of whom are now famous in the motion picture world. But he did this night and day task with such characteristic thoroughness that he was soon stage manager. During the two years he held that post he staged more than 5,000 sets for what were then the biggest feature productions and which still are easily remembered. It was his who painstakingly gathered together the Edison library embracing every author, literary book and illustration on history, costumes, manners and localities, gathered from all corners of the world. He has designed sets and costumes for every known film except the *Esquimaux* and his productions have always won most favorable commendation because of their faithful accuracy of detail. Some of these are "Frederick the Great," and Von Schiller's "The Robbers." His first directorship was in conjunction with Director Richard Ridgely, Mr. Collins doing all the battle and sea scenes in "The Southerners" while Director Ridgely was at work in the south. In "The Story of the Willow Pattern" when a stage manager in turning the whole studio into a lake in the remarkable realism of the blowing up of the battleship *Matine*, done in the studio, one can get a glimpse of the execution and ability of this quiet man, John Collins.

Director John H. Collins and company have just returned from Berlin, N. Y., whither they had gone to film a new four act feature in which Mabel Dana, Edson's to be the heroine and the play "Gladstone." Mary Elder, the well known writer, who has written a number of well known Edison features wrote the play especially for Miss Dana and placed it in the beautiful country, where in one beauty, there are seventy acres covered with a lagoon. The scenes are said to be some of the most artistic and pleasing ever filmed and make a beautiful background for a particularly worthy play.

While in Berlin, Manager McCarthy of the New Theatre in Hoesleke Falls planned a gala day for the town and surrounding country. He advertised the event of the personal appearance of the Edison players widely and when he whirled them in, in automobile, it looked from the crowds as if a circus had come to town. He had secured "The Storing," in which Miss Dana had made her memorable impression, for the feature of the evening. All were introduced from the stage and made fitting speeches, afterwards being royally entertained at the home of the owner of the theatre. Besides Miss Dana the party included Robert Connors, who will play opposite her; Pat O'Malley, Charles Sutton, Helen Strickland, Jessie Stevens, and A. Collins, Director Collins' assistant.

WAR LOAN WILL INVOLVE U. S. SAYS HENRY FORD

New York, Sept. 24.—"If I had my way I would tie a tin can to those Anglo-French finance commissioners and send them home," declared Henry Ford automobile manufacturer and philanthropist, here today. "This British loan is going to involve American pocket-books in the war. There is danger in that."

"If any bank in which my money or any company's money is deposited takes part in this loan I will withdraw every cent at once."

"This British war loan is dangerous because it will connect the American people with the war. It is hardly to be expected that a nation with its pocket-book at stake will remain peaceful."

"If England wants money why doesn't she send the American securities she holds over here, and sell them? Why does she hold on to our securities and yet come over here and try to borrow money without any security except the chances of victory?"

Not the Right Remedy.

In the discussion of a minimum wage for women and girls employed in department stores, which has been provided for in some parts of the country, a writer in a communication to an eastern newspaper contends that the minimum wage should also be extended to stenographers employed in offices. He says that many of these in his city are paid only \$5 or \$6 a week, whereas, in his opinion, \$8 should be the minimum wage and there should be an increase every year. The writer speaks of the time it takes a girl to learn stenography and thinks her services should command better pay than is received by saleswomen. But, he says, in the city where he lives, and where hundreds of stenographers are employed, the pay in most cases is less than \$8 a week, and if an increase is asked the request is liable to result in discharge.

Without doubt there is much of truth in this, but the question remains whether a minimum wage is the proper remedy. The trouble seems to be based on the overcrowding of a "profession" that is cheapened by the mere fact of overcrowding. The knowledge of stenography was once a rare accomplishment, but the modern rush of business has created a demand for it that was unknown in the earlier days, and mills for grinding out stenographers have been multiplied accordingly, with the result that the supply, such as it is, exceeds the demand in many places, and small pay is the inevitable sequence.

And stenography is not the only employment affected by similar conditions. There is a rush today, not only on the part of young women, but of young men also, for genteel and easy "berths." The business colleges are turning out armies of boys and girls every year qualified to do what armies of their predecessors are doing, and the effect upon the market for such service is they offer is much the same as this year's unprecedented peach crop is upon the peach market. An oversupply means depression of prices for labor of any kind as well as for commodities of any kind.

Expert stenographers are not a drug on the market. They never have been, and the probability is that they never will be. They command pay that requires no boosting by the minimum wage movement, and to this fact the army of small paid and dissatisfied "machine" stenographers should give their attention. There is a wide field of opportunity before them and by improving it they can lift themselves out of the slough of Despond. It is better to work one's way up in the world than to wait for a minimum wage and "lay down" on it in cases where the law provides it.

Frequent news from Sing Sing prison indicates that Warden Osborne and the Mutual Welfare League have not yet converted that institution into a little heaven on earth. While the "League" was conducting the trial of an offender the other day the "judge" was hit in the head with a stool thrown by one of the prisoners and injured so that "court" had to be adjourned until he could be patched up. Perhaps this sort of thing is reformative, but under all the circumstances the public can hardly be blamed for being somewhat skeptical.

The South is not tied down to cotton as solidly as it was and is steadily increasing its production of food stuffs. It is claimed that conditions in some of the southern states are very favorable for the production of beer, and it is to be hoped the time may come when that section of the country will be able and willing to help out on the meat supply.

Anthony Comstock, who had been waging warfare on vice for many years in New York, has passed on to his eternal reward. He was a radical, and that he was sincere in his efforts no one doubts. His work made his name familiar throughout the country, and the news of his passing will bring relief to certain circles.

Wizard Edison has perfected an electric delivery wagon which he believes will be found very practicable by business men. It weighs only 750 pounds and is not expensive to buy or operate. If the invention comes up to expectations it should speedily come into common use.

The Federal Advisory Council reports that business conditions throughout the country are improving. As the fellow said who called for a piece of pie at a restaurant, "The sample is all right; now bring on the order."

It is said the lemon crop of this country will be doubled by 20,000 acres of young trees in California which will soon come into bearing. This will be good news for all but the politicians.

CURRENT OPINION

Man Has Progressed in Knowledge Through Objective Education.

I question whether the human race as a whole has improved greatly. I have been making a study of the man of the old stone age of 125,000 years ago, and I find that his brain had a capacity of 1,800 cubic centimeters, which compares very well with that of modern man. How was the brain of the man of the state age built up to this size? Through objective education—by the handicrafts which were a necessity to his self preservation. There is a lesson in this for our educational systems.

I question the theory that the Neanderthal man is our direct progenitor. There is another link between man and the ape which is yet to be discovered.

The greatest contribution of biology, in my opinion, has been the elevation of our moral sense through knowledge.

Through the knowledge we have acquired we have been given new criteria for the human conscience to act upon.

Genetics and eugenics must make their appeal to the human conscience. The parents of today are better educated in science than those of 100 years ago, and therefore they know more about right and wrong. We must make our appeal to this higher moral sense to prevent the bringing of defectives into the world.—By Dr. Henry F. Osborn, President of the American Museum of Natural History, New York.

LACONIA WILL ENTERTAIN PYTHIANS

Annual Grand Lodge Session to Be Held October 4 and 5.

The annual session of the Grand Lodge Knights of Pythias will be held on Monday and Tuesday, October 4 and 5 and will be attended by Past Grand Chancellors Chauncey B. Hoyt and Frank W. Knight and others from this city.

The program will open in the evening of Monday, the 4th, when there is to be a Bible class. A great many wonder what the meaning of the Bible class is. The original Bible on which the first statute took its obligation is in existence and is now the property of the supreme lodge. The supreme keeper of records and seal is to come from Minneapolis, Minn., bringing this original Bible with him and this Bible will be used in the ceremony; hence the Bible class. At the present time over 200 names have been received from various parts of the state for this class.

Supper will be furnished by the local Rebekah lodge at 6 o'clock, Monday evening, October 4. Candidates will receive their credentials and the word which will admit them to Mount's Opera house, where the rank will be conferred at the conclusion of the supper. The work is to be done by Mt. Belknap rank staff.

The Lakeport lodge will assist Mount Belknap in the conferring of the rank and a special committee will net in conjunction with the Mount Belknap committee in issuing invitations and assisting at the reception.

This will be followed by the play of "Friendship" to which all members of the order and their wives and members of the sisterhood will be admitted, and also invited guests.

At the conclusion of the work and drama a reception will be given to Hon. John J. Brown, supreme vice chancellor; Fred E. Wheaton, supreme keeper of records and seal, and other distinguished guests. This will be followed by a ball to which all knights, their wives, the sisterhood and invited guests are entitled to attend.

Tuesday the grand lodge convenes in its regular annual convention. The first business is the admission of all qualified to receive the grand lodge rank. A large class is expected to be present.

At 12 o'clock sharp, a banquet will be served in the armory. All members of the order are entitled to attend this banquet. The object of the banquet is to allow the members of the grand lodge to hear and see the distinguished guests. There will be no speaking at the Grand Lodge convention. All the addresses will be made at this banquet. Plates will be spread for three hundred. The grand chancellors and supreme representatives of all the New England states have been invited as

WORKINGMEN OF BELGIUM STUBBORN

Berlin, Sept. 25.—The workingmen of Belgium stubbornly refuse to perform the task imposed upon them by the German authorities in the occupied part of the country. The secretary of the German industrial committee at Louvain has just issued a report of conditions in the Belgian provinces of Namur, Limburg, Liege and Hainaut. Not more than 2000 out of a total number of more than 15,000 workers have consented to do any work at all and even those do not turn out more than a mere fraction of their normal output.

The married workers of Dinant are on strike. The metal factories are also idle. The sugar factories of Tirlemont have started work but there is a great scarcity of labor. In spite of all inducements the Belgian railroads remain closed.

SOUTH ELIOT.

Services at the South Eliot Advent Christian church for Sunday, Sept. 26, will be as follows: Sunday school at 1:15; preaching service at 2:30, by Rev. Irvin P. Barnes of Portsmouth; at 7 o'clock there will be a social service; all are cordially invited.

The services at the Methodist church on Sunday are as follows: 1:15, Sunday school; 2:30, preaching service; 7:30, preaching service; the minister, Rev. A. J. Hayes, will speak at both services. Prayer meeting in Epworth hall on Wednesday at 7:30 p. m.

WILL NOT CALL EXTRA SESSION

President Wilson Decides Not to Convene U. S. Senate at Present.

(Special to The Herald) Washington, Sept. 25.—Officials in President Wilson's confidence said today that the President has practically decided against the calling of an extra session of the senate to meet in October to revise its rules. The President takes the view that an extra session would mean a discussion of the international relations of the United States, something which he is very anxious to avoid.

The Colonial Theatre will open its doors at 1:45 for the matinee performance and at 6:30 in the evening.

WILL OBSERVE FOUNDERS' DAY

New Main Building at Phillips-Exeter to Be Dedicated With Fitting Exercises.

The program for Founders' day at Phillips-Exeter academy, October 9, when the handsome new Maine building will be dedicated is:

10:15, procession; 11 o'clock dedication exercises in the academy building, the speakers to be S. Sidney Smith of the trustees, President Hibben of Princeton, President Stearns of Phillips Andover and Thomas W. Lamont '88.

At 1 o'clock luncheon will be served in the Graduates' House and at 3 o'clock there will be a football game between Exeter and Worcester on Plimpton field. The closing event is the tea served at 5 o'clock in the Graduates' house.

This will be the first time that Founders' day has been observed here. It has, however, been the custom at Andover for the past several years. At Andover it will be held October 2 this year.

SUBMARINE SETTLEMENT EXPECTED

Ambassador Von Bernstorff Will Confer With Secretary Lansing.

(Special to The Herald) New York, Sept. 25.—Ambassador von Bernstorff believes that the submarine controversy between this country and Berlin will be settled very soon. He will go to Washington in a few days and hold an interview with Secretary Lansing. He said: "I am able to assure the American people that the matter will be arranged quickly and satisfactorily for both sides. I have been in constant communication with Berlin and I regard it as a matter of a very short time until the controversy is ended forever."

VETERANS ARRIVING IN WASHINGTON

(Special to The Herald) Washington, Sept. 25.—With the opening of national headquarters at the Raleigh Hotel today the preliminary to what may prove the last annual encampment of the Grand Army of the Republic got well under way. Many of the higher officials of the organization already are on the ground. Every train that arrived today disgorged its cargo of uniformed veterans coming to talk over again the stirring days of '61-'65. Seldom even for an inauguration has Washington been so gay with decorations. It is realized that few of the veterans will be able to attend another reunion and that this year's parade to be reviewed by President Wilson on Wednesday, the 50th anniversary of the "Grand Review" itself becomes historic.

2700 WOMEN CONDUCTORS IN BERLIN

Berlin, Sept. 25.—Almost all of the street cars of the German capital are now run by women. Over 27,000 of them have taken the places of the conductors called to the front and about 500 are acting as motormen. Several thousand other women are employed as inspectors, starters, car cleaners, and switch tenders.

BANQUET TO P. A. C. BASE BALL TEAM

(Continued from Page One.)

All of the members of the team were on the job, just as strong as when they were on the diamond fighting for the pennant. They were Bill Woods, Bill Brackett, Ira Newick, Charlie Brackett, Tommie Lynskey, Mose Howard, Crab Brackett, Sunshine Leary, Spider True man, Zip Harrington, Nels Davidson, Early Bruce and Chick Lear.

Following the dinner speeches were made and the battles from the opening game on May 6th, when the P. A. C. defeated the Marines 6 to 2 till the end of the war on Aug. 11, which was won by a 7 to 6 score against the Y. M. C. A. were all fought over again.

The menu was in the form of a souvenir with a photograph of the team on the front cover and the names of the members of the "outfit" on the back.

FIREMEN'S CONVENTION NEWS

Program for Thursday, Sept. 30 The procession will start promptly on a stroke of the fire alarm over the following route: Forming on Court street, left into Pleasant, where it will be reviewed by the governor, mayor and city council; thence to Pleasant to Market to Deer, to Vaughan, to Congress, around the fountain on the Square, countermarching up Congress to Arlington, to Cabot, to Middle where there will be a rest of 15 minutes; then to State, to Pleasant, to Court, where the apparatus will drop out and return to their respective houses; parade will continue down Rogers street to the Playgrounds where a clam-bake will be served from 12 to 1:30 o'clock.

At 2:30 a short sail will be taken down the Piscataqua river on the steamer, thence to the navy yard on a sight-seeing trip.

There will be a band concert in the evening from 8 to 9 o'clock on the parade.

Special program at both the Portsmouth and Colonial theatres, which will be open to all firemen in uniform and badges.

The Olympia Theatre will be open to all firemen in uniform.

The firemen respectfully request all persons having flags to display them on Parade Day, especially on the route of the procession.

Arrangements are completed for the grand ball Wednesday evening, Sept. 29, at Freeman's Hall. There will be no ladies' invitations issued. Ladies admitted free.

CONCERTED ACTION TO SAVE LIVES

American Red Cross Is Perfecting Plans for Relief Work in Armenia.

Washington, Sept. 25.—Concerted action to save the lives of the remaining 750,000 men, women and children left in Armenia was begun today. While waiting for a plan of procedure to be suggested by Ambassador Morgenthau, the American Red Cross was perfecting plans to raise needed funds for relief work and within the next few days it hopes to have experienced agents on the way to Constantinople to be on the grounds.

WILL CONCLUDE PASTORATE SUNDAY

(Continued from Page One.)

the church the membership of the church, Epworth League and Sunday school has about doubled. The church has been placed upon a good sound financial basis and the salary has been very materially increased. About \$2500 has been expended the past two or three years for improvements on the church.

Soon after coming to Kittery, Rev. Mr. Hayes organized a troop of Boy Scouts and much good work was done among the younger element of the town. He has been a great friend of the boys and he is held in high esteem by them. His efforts have been untiring in behalf of their good, and the excellent work accomplished by him will be everlasting. As an outgrowth of the Boy Scout movement interest has grown in the town until a permanent movement has been started to continue this good work under the direction of the Y. M. C. A.

In entering upon his duties on the navy yard the work is not entirely unfamiliar to him as he has conducted services on board the U. S. S. Southery and at the naval prison several times a week for the past year, besides doing much personal work among the enlisted men, by whom he is greatly liked.

Both Rev. and Mrs. Hayes have made many friends during their residence in Kittery, and all are very glad of his success and wish him the best of good fortune in his new field of endeavor. It will be pleasing to them to learn that Chaplain and Mrs. Hayes will continue their residence in Kittery during his appointment at the local navy yard.

"THE HIGH ROAD"

A Five-Reel Screen Version of Edward Sheldon's Drama by the B. A. Rolfe Photo Play Co.

David Belasco is responsible for quite a number of innovations in the producing of plays, among other things the symphonic opening; for example: The panorama which precedes the first act of "The Girl of the Golden West". This method of assisting an audience into the atmosphere of the impending performance has been adopted by the moving picture producer, very often to the advantage of the photoplay. When skillfully used it is its own justification. John W. Noble, who transferred the Sheldon drama "The High Road," to the film has introduced a number of symphonic scenes at the opening upon one half of the screen, while upon the other half the figure of a woman is shown tramping along a high road in the distance. The result is not altogether artistic and adds nothing to the picture, as the rest of the play is unadorned melodrama and entirely devoid of the symbolism with which Edward Sheldon tried to envelop the original work. Once past these aids to the unimaginative, what follows is a straightforward and absorbing history of a woman's winning fight against fate.

Not an unusual theme but in this case, it has been developed with steadfast purpose and made to plead a constant stream of dramatic but consistently human incidents; a skillfully devised and realistically photographed five episode forming one of the features of the drama. Uniformly good work on the part of the producer is found all through the play proper.

Valli Valli, the English actress who first came to this country with "Veronique" and who has other pleasantly remembered achievements in musical comedy to her credit, plays the role in the screen version of "The High Road" that Mrs. Fiske created in the spoken drama. Her debut in this branch of the actor's art was entirely successful. Frank Elliott and C. H. Brenon contribute well drawn character studies, and the entire cast has been selected judiciously.

This wonderful picture will be presented at the Portsmouth Theatre on Monday and Tuesday Sept. 27 and 28.

THE WEATHER

Forecast for Portsmouth and vicinity—Saturday fair and cooler; Sunday probably fair; moderate, northwest winds.

FOOTBALL SEASON COMMENCES

New York, Sept. 25.—The majority of the eastern footballers made their debut today when something like 50 college games, the first on the 1915 schedule, were staged.

Western football, however, won't make its bow until next Saturday, at which time all the big colleges in the sunset section of the country will commence operations.

Practically all the big elevens in the East figured in the gridiron battles today, but most of these were regarded merely as "conditioning" games by the coaches.

Yale met the University of Maine eleven in the annual duel, and the Eli supporters looked for a comparatively easy victory. Harvard's warriors grappled with the Colby eleven in Cambridge and the Crimson rosters predicted a 30 to 0 score. Pennsylvania met the University of West Virginia outfit and the rosters from the West Virginia institution were confident that the "smaller" eleven would give Pennsy a real fight.

Here is today's schedule, covering the majority of the big games that were played:

Amherst vs. Middlebury, at Amherst. Bowdoin vs. New Hampshire College at Brunswick, Me.

Brown vs. Rhode Island State, at Providence. Bucknell vs. Susquehanna, at Lewisburg, Me.

Carleton vs. Lehigh, at Carleton, Pa. Dartmouth vs. Mass. Aggies, at Hanover, N. H.

Harvard vs. Colby at Cambridge. Haskell vs. Kansas Western University at Lawrence, Kan.

Holy Cross vs. Bates, at Worcester. Lafayette vs. Muhlenberg, at Easton, Pa.

Lehigh vs. Uralinus, at So. Bethlehem, Pa. Miami vs. Ohio Northern, at Oxford, Ohio.

Oberlin vs. Heidelberg, at Oberlin, O. Ohio Western vs. Wittenberg, at Delaware, O.

Parsons vs. Coe, at Fairfield. Princeton vs. Georgetown, at Princeton.

Rutgers vs. Albright, at New Brunswick. Syracuse vs. Hobart, at Syracuse.

Trinity vs. Norwich, at Hartford. Union vs. St. Lawrence, Schenectady, N. Y.

U. of Akron vs. Case, at Akron, O. U. of Pa. vs. U. of W. Va., at Philadelphia.

Washington and Jefferson vs. Geneva, at Washington, Pa. Washington and Leo vs. Davidson, at Lexington.

Williams vs. Rensselaer P. I., at Williamstown. Yale vs. University of Maine, at New Haven, Conn.

MILITIA HOLDS GREATEST WAR DRILL

New York, Sept. 25.—The greatest drill of national guardsmen in full war equipment ever held took place here today at Van Cortland Park in the presence of a vast throng of civilians. Seven thousand citizen troops made a practice march through the park just as they would do in a hostile country.

There were long wagon trains, cavalry patrols which went out ahead to prevent ambush and to obtain the information of the enemy, flank guards and rear guards.

Instead of the sumptuous press uniforms in which New York is accustomed to see the guardsmen parade at public functions, there was the stern khaki of the field, the breezy felt hat, puttees, and on each soldier's back a heavy blanket, knapsack and camp cooking utensils.

The Guardsmen took their duties seriously, both officers and men having been sobered by a year of war reading to a full realization of what it meant that this state's militia, forming a full division, takes its place right after the regular army as defenders of the Union.

All the troops of Manhattan, Brooklyn, Queens, the Bronx and Staten Island were present. They marched to the park in war formation and then performed evolutions which had been worked out by Major General John F. O'Brien, commander of the state forces and his staff.

Governor Whitman's presence in the reviewing stand was calculated to lend an official atmosphere to the review. The Guardsmen in many cases have been picked by the prominence of the Phillipsburg business men's camp, where rookies received one month's training and were glad to demonstrate the merits of the three year Guard enlistment.

Several officers of the U. S. army were also spectators of the march and their remarks were complimentary.

An interesting feature of the march was the presence of about 500 volunteer motor cycle soldiers who have been organized and drilled this summer by Captain Lockard Spencer of the United States Coast Artillery at the request of General O'Brien.

These men all furnished their own cycles. They were divided into mounted orderlies for staffs, machine gun companies, companies for the transportation of ammunition and auxiliary companies for field hospital service.

CITY TAKES THE PROPERTY FOR TAXES

Another Chapter in the Men-
dum Avenue Sewer
Matter.

The property on Mendum avenue
owned by Mrs. Romane S. Kelley, Mrs.
Alice B. Paul, H. E. Seavey and Thom-
as D. Noyes was sold at auction today
by Tax Collector W. H. Page, and
purchased on behalf of the city by
City Clerk P. E. Drew for the sum of
\$612.77. This transaction was the out-
come of a controversy over the pay-
ment of the abutters' share of taxes on
a sewer constructed there last year.
The joint owners of the land are of
the opinion that they are not in any
way liable for the construction of the
sewer and that the cost of same should
be paid by the city.

NAVY YARD NOTES

Reports on Vulcan.
Albert W. Cutley of Boston has re-
ported as third assistant engineer on
the collier Vulcan.

Registration Is Heavy.
Five hundred applications have been
received for work by the labor board
since the beginning of the fiscal year
on July last. This shows a great in-
crease of registration and shows that
there is no trouble in getting men for
steady work. The whole year previous
only 1000 registered during the entire
year.

On Eight Days' Leave.
Archibald Kilpatrick, watchman at the
Daniel street ferry landing, is enjoying
a vacation of eight days during which
John S. Wendell will substitute.

Chief of Bureau at the Yard.
Admiral Robert S. Griffin, chief of
the bureau of steam engineering, ar-
rived at the yard today where he in-
spected the industrial department.

Franklin Condemned.
The old ship Franklin, which has
been in the service of the United
States for a century, has been con-
demned by a naval board of survey and
probably will be sold for junk. This
vessel is at present stationed at the
Norfolk navy yard as a receiving ship.

Vessel Movements
The Yorktown has arrived at Ital-
boa.
Cincinnati at Shanghai.
Heard at Boston.
Des Moines at Alexandria.
Brooklyn at Port Pond Bay.
Florida, Utah, South Carolina and
Michigan at Hampton Roads.
The New Orleans has sailed from
San Diego for La Paz.

PORTSMOUTH THEATRE

(MUSIC HALL)
F. W. HARTFORD, Manager.

Our feature picture for Friday and
Saturday will be
"THE SPENDTHRIFT"

A six-part film dramatization of Por-
ter Emerson Brown's celebrated play
of the same name. Irene Fenwick will
play the leading role assisted by other
leading film actors of the George
Kleins Co.

In addition to the above there will be
other pictures to be announced later.

Our program for Monday and Tues-
day will include the following:
"The Tattered Parchment"—Being
the 11th installment in the "Neal of the
Navy" series.

"A Message From the Past"—The
11th installment in the "Road O' Strife"
series. If you are following this series
don't miss this chapter as it is the
most interesting of all. A startling
revelation will be made. Watch for it.
The photoplay lovers of this city will
shortly be given a treat in the form of
that mighty spectacle which is being
shown throughout the country, "THE
BIRTH OF A NATION." This won-
derful feature picture will be shown in
this city in the near future at either
the Portsmouth or the Colonial Thea-
tre, announcement of which will be
made later.

Beginning next week, in addition to
the General Film Company's program
these of the Universal and Mutual will
also be shown, including those famous
Keystone comedies.

The same popular prices prevail—
Matinee 5c; evening 5c and 10c.

REFUSED DUTY.

Captain of Schooner Orders
Crew Placed Under
Arrest.

Captain Peters of the schooner Wen-

ing that his crew were fussy and
that they refused duty. He wanted the
men arrested and the police later got
four of them on Penhallow street.
They were celebrating the birthday of
one of the crew and there was plenty
of sociability among them. Two of
them were recorded on the drunk side
of the blotter and the others went on
the safe keeping list.

COWS DIE FROM EATING LEAD DROSS

State Chemist Charles D. Howard
has had under examination of late, a
case rather out of the ordinary, com-
ing from the Merrimack County Farm
in North Roseau.

The farm management has during
the season been laying a water pipe
through a pasture and the men en-
gaged in leading the joints left quan-
tities of dross in the path followed by
them in their work.

There were four cows in the pasture,
all of which were taken mysteriously
ill a short time after the completion
of the pipe laying. Three of the ani-
mals died and the other recovered.

A post mortem made by a veterinary
disclosed chunks of lead in the stom-
achs of the three cows, which had
caused death by poisoning.

Then the question arose as to how
much lead the fourth cow, which sur-
vived had eaten, and what effect the
lead in her system might have on her
milk.

To settle this question samples were
forwarded to the state laboratory, and
the analysis has just been completed
by State Chemist Howard. He found
traces of lead in the milk supply, but
not enough to render it unfit for hu-
man consumption, and has so reported
to the farm authorities.

PLAYED A TIE GAME.

The Greek Tigers and the Athletics
played their first game of football for
the season of 1915 at the South play-
grounds this Saturday morning, the
score being 19 to 19. The tie will be
played off at a future date. The line-
up was as follows:

FACTS TO REMEMBER

After twenty years' struggle the women of Massachusetts
obtained a nine-hour day for working women, which may be
violated, however, for a fine of one hundred dollars and no
imprisonment, while violation of the drastic eight-hour law
for men is punishable by a fine of one thousand dollars or six
months' imprisonment. Moreover, the nine-hour law for
women does not apply to stenographers, bookkeepers or
women in clerical work.
